

The ibrightright® Dry Van solution

Smart fleet
management boosts
your bottom line!

The ibrightright® Dry Van fleet and asset management tool delivers optimum overall fleet management. It's part of a superior single platform telematics solution from International Telematics Corporation.

ibrightright® Dry Van benefits

- + THROUGH GPS - YOU'LL KNOW WHERE YOUR TRAILERS ARE AT, 24/7.**
- + MONITOR THE FLEET IN AND OUT OF SPECIFIC GEOGRAPHIC AREAS WHICH YOU CREATE – WE CALL THIS 'GEO-FENCE' TRACKING.**
- + MEASURE ASSET DOWNTIME THROUGH "DWELL REPORTING" WHICH TELLS YOU WHICH FLEET ASSETS ARE LYING IDLE, AND HOW LONG THEY'VE BEEN THAT WAY.**

Security and theft protection

ibrightright® gives you peace of mind and added security. You can:

- Easily locate any missing trailers
- Receive location, time, cargo and door status reports
- Receive text and email alerts in "real time" so you'll instantly know if there's a problem with the fleet.

You'll simply never lose a load.

Specific activity detection

- ibrightright® Dry Van gives you precise reporting and monitoring of trailer movement.
- Shows exact in, out and waiting times and configures reports to claim rebates for detention times.

Maximize the productivity of your fleet assets with ibrightright® Dry Van.

Quick and easy two-way communication

You can “ping” the ibright® Dry Van unit via text messaging so you can always be in touch with the driver, and add new features to each unit over the air (OTA).

The ibright® Dry Van solution not only makes optimal fleet management easy, it's an important tool in your overall business management.

| FEATURE | FUNCTION | BENEFIT |
|----------------------|---|---|
| GPS | Pinpoint any trailer unit at any time. | Know where your assets are at any given time, locate missing assets, and maximize productivity and efficiency with optimal route planning. Pinpoint ETA and arrival times. Fleet management benefits when used with other features. |
| GEO-FENCE TRACKING | Monitor trailer movements in and out of a specific geographic area. | Feedback precise data to customers on arrival and departure times at their yards. (Eliminate questions). Monitor fleet movement for greater efficiency. |
| DWELL REPORTING | Measure downtime of specific assets. | Maximize efficiency through identifying and activating idle assets. |
| REAL TIME ALERTS | Cargo door status, theft and security protection. | Instant notification of faults, or cargo issues, so problems can be managed quickly. |
| INTEGRATED REPORTING | Supply real time reports on fleet activity. | Store and learn from fleet data, easily provide records of activity for customers. |
| POWER SAFE MODE | The unit will operate without external power. | If power connection is lost, you won't lose important data. |

Until now fleet owners and managers have had to rely on different solutions for ibright® In-Cab, Dry Van and refrigerated goods.

**Not anymore.
The ibright® solution delivers it all in a superior single platform telematics system.**
